

## Andrea's Light

In the city where dreams take their flight  
Tonight's a celebration in the moon's gentle light  
For the woman who holds my heart so near  
Her birthday, a moment we all revere

In the line at Joshua's, she broke through  
A vision in a backless dress, my heart knew  
Once inside, I searched for her in the crowd  
To dance, to connect, to make her proud

From 112th St. to where she stands today  
A journey of grace, wisdom lighting her way  
Los Angeles holds her dreams and her name  
Andrea's spirit, forever untamed

Oh, Andrea, your light shines so bright  
With every smile, you make the world right  
A magnet to all, with love you do bless  
In your presence, we find happiness

She dances with a rhythm so divine  
Steps precise, in every line she does shine  
Her passion, a testament to her soul  
In every move, she finds her whole

On a boat off Guaymas, beneath the stars  
I asked for her hand, our hearts unbarred  
With a yes, she changed my life that night  
In her love, I've found my guiding light

Oh, Andrea, your light shines so bright  
With every smile, you make the world right  
A magnet to all, with love you do bless  
In your presence, we find happiness

From nurse to doctor, she paved her own way  
In Puerto Rico, she learned and stayed  
Now a voice in the world, her podcast rings  
Sharing wisdom, her heart's song sings

Garrett and Sydni, proud to call her mom  
A family united, in her love so calm  
Her journey inspires, her strength so profound  
In her embrace, true love is found

Andrea Kynard, my love, my life's delight  
In your eyes, I see the stars so bright  
Here's to you, on this special day we toast  
To my wife, my love, the one I cherish most
